LIFEGUARD DESIGN—A mother makes sure that her son is securely seated in a 1956 Ford Sunliner. The new Ford, which will be shown to the public Friday (September 23) incorporate five safety features in a "lifeguard design" intended to reduce chances of accidental injury. On all new Fords, safety-designed steering wheels, door latches and rear view mirrors are standard equipment. Wheels are designed to absorb force if the driver is thrown forward, reducing the chance his chest might strike the steering column hub. Safety door latches (lower left) will resist crash impact, and help keep passengers inside the car where they are twice as safe, according to research figures. Mirrors have a special backing to help prevent shattering. Optional seat belts will withstand up to 4,000 pounds of force. Optional crash cushions for instrument panels and sun visors will provide added protection if a passenger is thrown forward.

New 'Safety' Ford Will Go on Display in Benton

Safety features offered for the first time by any automobile company, power equal to the Thunderbird, and lower body silhouettes are available in 1956 Ford cars which 6,800 Ford dealers place on display next Friday (Sept. 23).

The new Fords will be built in our series offering 18 body styles two more than in 1955. They are available in 13 solid exterior colors, or 21 two-tone combinations.

A "Thunderbird Y-8" engine leads the power selections available for 1956. It is installed on Fairlane and Station Wagon models, and develops 202 horsepower for Fordomatic, or 200 hp for overdrive or standard transmission. Customline and Mainline Fords offer a Y-8 engine developing 176 hp for Fordomatic, or 173 hp for overdrive or conventional Ford. Also, the economical Ford six, increased to 137 hp, is available on all models with all transmission types.

Ford safety research, coupled

with studies of medical groups, led to development of a "lifeguard design" in 1956 models.

New door latches give added protection against the chance that doors may open under impact. They have been proved in full scale crash tests at Dearborn, Mich.

To keep the driver's chest from hitting the steering column in a crash, the new three-spoke Ford steering wheel has its center hub recessed 3 1/8 inches below the wheel rim.

Rear view mirrors have a special backing designed to prevent shattering.

Front and rear seat mountings have been strengthened so they will resist greater impact.

In addition, Ford offers two optional safety devices. Seat belts, designed to withstand pull up to 4,000 pounds, will help to hold occupants inside cars, an dto prevent forward motion. Foam plastic padding for instrument panels and sun visors will help to absorb impact if a person is accidentally thrown forward.

House Of Our God
Lesson for September 25, 1955

WHY support churches? The first thing we need to understand about this, as Christians, is that support of the church is not optional, but a "must." During a year's time every citizen is confronted with more "causes" than most of us can keep up with. We are invited to share in many good works; orphanages, schools for the blind, boys' towns, foundations for the study of various diseases, hospitals for crippled children, the Red Cross, all sorts of things. Most of us have to decide which we shall send our few dollars to, and which not. But if a Christian thinks he has a right to decide whether or not to support the church, he does not understand what the church is. The central reason why the church calls for the support of the people of God is that it is the "house of our God."

Here They Know You
If those poor people in ancient Jerusalem pledged themselves to support the house of God, we who are Christians have even more reason to do so. For one thing, the church is where we really belong. Where else in the world is a person recognized for what he is, a child of God? Elsewhere you are a statistic, a consumer, a customer, a taxpayer, a cost item, a voter. These may be important facts about you. But the most important fact about any human being is not that he is kin to the human race, important though that is. The big fact is that every human being is made by God, for fellowship with him. Every man alive is a child of God. Either he knows that or he does not know it. Vast numbers of the human race live as if they were orphans of the storm, they live pigs' lives like the prodigal in Jesus' parable. But no one will tell them they are children of God. No one will tell them of the Father's house, no one will recognize them for what they are. Only in the house of our God.

Here Citizens Are Trained
There are very short-sighted people who may tell you that money put into support of the church could better be spent in civic improvement, such as better schools or sanitation. On the contrary, supporting the church is the best thing that can be done for the betterment of society. It cannot be said too often: even if the church were only a listening post, even if a church did nothing at all but hold a meeting on Sunday, even if a church might as well be laid flat in ashes six days in the week, for all the work it does—still, even if it did no more than hear God's messages once a week, it would be doing a great and unique thing. For the people who hear those messages and believe them would come to know their true relation to God and their duty in his sight; they would live not as animals, not as "beasts that perish," but as immortal sons and daughters of the Most High. Then if the church is more than a listening post, if it puts its members to work, they will be actually taught and trained in Christian living.

Here God's Will Is Taught and Taught
Are we talking about the real church or are we idealizing it? Well, of course no church is quite ideal. But taking the church by and large, these things are true, the church at its best wants them to come true, this is what it is living at. For the church is the only place in town where large groups of people join in trying to know the will of God, and how to find it and how to do it. The church is the place where problems, persons and/or social, and ought to be discussed in the light of God's Word and Will. It is the place where life is looked at in the light of heaven. A church that does not live up to its high calling is hardly worth support; but a church where there is a sincere effort to know what God wants for this community and for our part in it, a church where there is a brave and honest opportunity for minister and people to think and to study and to speak out for God and his ways, a church which by prayer and service keeps the door open toward God, such a church is indeed a House of God; how can a Christian refuse to support it?

Letter to the Editor

Dear Gania:

Last Sunday out at Marjorie Hayes' in Crescent Hill I saw a copy of the Marshall Courier with A. J. Wells' Hardin letter and I decided I must subscribe. There was never a more lovable place than Hardin and it is lucky to have had such a chronicler as Mr. Wells. If he quits writing I shall cancel my subscription. You would never guess what I did yesterday? I taught first grade in a Louisville school. I find that children haven't changed as much as I have been told. Wayne Pace, Keith Pace, Josephine Fulton, Julia Jeffries, Laurine Combs, Patsy and Frances Phillips and dozens of others were well-behaved children in Hardin when I was their teacher and I found well-behaved children in Louisville yesterday.

My regular job is typing in the office of a hospital but as I'm on vacation now I had a chance to be with children and was glad to take it. Last year just to prove to the girls in the office that I could, I took my old State Certificate down to the School Board and had it renewed. That is how I happen to have a substitute teachers' card. Remember me to old friends. I have been away 13 years and still I plead with my neighbors to write to me. I never forget anybody. Love from

New Social Security Law 'Freezes' Earnings

A new provision was made in the social security law by the 1954 amendments to protect the old age and survivors insurance rights of people who are now totally disabled and will be unable to work for a long period of time. A person who has sufficient work covered by social security can have his earnings record frozen if he becomes totally disabled for work before age 65 and his disability is expected to last indefinitely.

Lesson on Clothing Given Tatumsville Homemakers Club

Take a look in your clothes closet before fall buying. Mrs. W. L. Frazier, clothing leader, told the members of the Tatumsville Homemakers Club Thursday afternoon in presenting the Clothing Guideposts lesson at the club house.

During the business meeting the club voted to change our meeting day from the third Thursday to the third Friday. The members will have an all-day quilting the 27th at Mrs. Kate Donohue's. Two quilts will be finished for Mrs. Burnett Holland, former member, whose home was destroyed by fire. Pot-luck lunch and everyone invited.

Mr. and Mrs. Paul Clayton of Route 7 were visitors in Benton Thursday.

security work out of the three years immediately before the date the disability started.

It is important to know that this feature of the law does NOT provide for cash disability payments. It simply means that if you become disabled and meet requirements explained above, you can apply to have your earnings record "frozen" while you are unable to work. Some individuals have construed this section of the law to mean that they could receive cash payments while disabled even though they were under age 65.

This is not true. It does mean that when your earnings record is frozen the period of low earnings or of no earnings caused by your disability, need not be counted at all in figuring your average earnings, (upon which the amount of your benefit is based), or in figuring the amount of work you need to be eligible for old-age insurance payments. It will be easier for you to qualify for benefits, and the amount of your benefits may be larger.

If you meet the requirements for a freeze of your social security record or would like to obtain additional information, contact the Paducah District Office of the Social Security Administration at 529 Broadway, Paducah, Ky. Office hours are from 8:30 a.m. to 5 p.m. Monday through Friday.

A representative of the Paducah District Office will be in the Court House Building (Circuit Court Room), Murray, Ky., every Wednesday at 1 p.m. If it is more convenient for you to meet him you can get the same information and assistance. An appointment is NOT required.
